

XP2020 CALL FOR RESEARCH PAPERS

21st International Conference on Agile Software Development

Topics of Interest include but not limited to the following,
in **Agile and lean contexts**...

- Beyond software
- Business and startups
- Business and enterprise agility
- Education and training
- Emerging topics and future directions
- Empirical studies and evaluations
- Foundations and conceptual studies
- Games and game-based techniques
- Global software development and offshoring
- Healthcare
- Large projects and organizations
- Leadership and coaching
- Requirements gathering, engineering
- Testing, release management, and deployment
- Qualitative/quantitative improvement techniques
- Measurement and metrics for projects, processes, software, and teams
- Sustainability, evolution, and revolution
- Tools and techniques for Agile and lean development

We have an excellent program committee. Best papers will be invited to submit to **Information and Software Technology** special issue (details on website). Look forward to your submissions and seeing you in Copenhagen in 2020!
